## Assignment – 3 (HTML & CSS)

*Note:*   *You will need images given in the zip archive for this assignment.*

Problem – 1:

- Create a web page that shows the picture of a hall with two doors, as follows:

- If you click on the door "**TV Room**", it should take you to the TV Room page which looks like this:

- If you click on "**Games Room**", it should take you to the following web page:

- From both the rooms, if you click on the door labeled "**Hall**", you should go back to the starting web page of the hall.

Problem – 2:

Create the following web page that tells a story:
